A FORCE FOR GOOD

P&G Canada and its brands have donated over \$2.5 million in hygiene products, hand sanitizers, face masks and financial support to healthcare workers and Canadians impacted by the COVID-19 crisis. Part of the donation includes providing 33,000 P&G hygiene kits totalling over \$500,000 to local shelters and food banks. We have started manufacturing face masks, hand sanitizer and face shields at various manufacturing sites around the world. In Canada, we will begin producing non-surgical-grade barrier masks at our Belleville site and hand sanitizer at our Brockville site. We will work with local government entities to donate product that we can manufacture beyond operational needs. The masks and sanitizer will not be available for retail sale. We thank you for your continued loyalty & partnership with Crest & Oral-B and its family of award-winning products.
